
LENSER EASY-FIT

BASED ON PROVEN ELASTOMER SEALING

WITH IMPROVED Ω -SHAPED
ELASTOMER SEALING

FOR DRIP-TIGHT FILTER ELEMENTS

LENSER EASY-FIT

The LENSER EASY-FIT is an improved cloth attachment exclusively for sealed filter plates. LENSER KF CGR have an Ω -groove. While conventional filter cloths for sealed filter plates only have a U-groove, the elastomer seal of the LENSER EASY-FIT is adapted to this Ω -shape. In this way, the filter medium sits exactly at the same height as the milled edge of the groove and can also no longer slip out of the groove.

FEATURES

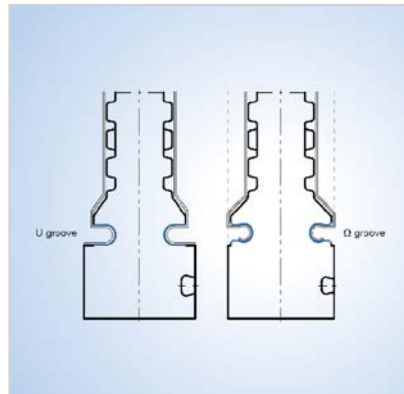

- + Leakage-free filtration and safe operation
- + High quality, tensile strength and excellent elasticity
- + Elastomer sealing is recyclable
- + Available in all sizes; also with hydrophobic coating on request

BENEFITS

- + Fast assembly and short downtimes
- + Meets the guidelines for EC 1935/2004, EC 10/2011 certifications and complies with FDA regulations
- + Cloth exchange without removing the filter plate

Simple assembly

Comparison: U-groove and Ω -groove
