
LENSER KM RUD

MEMBRANE FILTER ELEMENT – EXCHANGEABLE MEMBRANE HALF

MEMBRANE ATTACHMENT WITH
CLAMPING STRIPS

CAN ONLY BE USED AS LENSER MIXED PACK

LENSER KM RUD

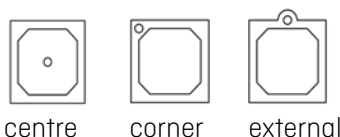

With LENSER membrane filter elements, you can significantly shorten your filtration process, increase the dry content of your cake and save enormous resources. Exchangeable membrane filter plates are an efficient and cost-effective solution for maintaining your filter press equipment. In the case of worn elements, it is not necessary to replace the complete filter plate, but only the membrane – the basic body remains intact.

With type KM RUD, the membrane are fastened in the designated mounting grooves of the basic body by means of clamping strips. **Please note that the KM RUD type can only be used as LENSER Mixed Pack.**

FEATURES

- + Shorter filtration cycles
- + Shorter washing times
- + Higher dry solids content
- + Membrane attachment with clamping strips

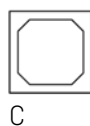

Feed port position

BENEFITS

- + Higher throughput rate
- + Reduced water consumption
- + Reduced air consumption during blow-drying
- + Squeezing pressure up to 30 bar

Version

TECHNICAL DATA

Size	320 mm and from 1.000 mm to 1.500 mm
Cake thickness	From 15 mm to 50 mm
Filtration pressure	Up to 8 bar
Squeezing pressure	Up to 30 bar
Feed port position	Centre, corner, external
Version	C
